It enjoys the sun in the afternoon, and on the terrace from 10 am. The beach is 1000 metres away, about 10 minutes walk. ~Its location is enviable as it is within walking distance to all the services you may need. The shopping centres are opposite, with direct access to the CC Market. The communal areas of the complex are in good condition, it does not have a communal swimming pool or communal garage or parking, although there is a very large area for parking.
