M2 constructed: 79

The Ana Rosa complex comprises 9 two-storey semi-detached bungalows and a block of 6 flats: 3 on the upper floor and 3 on the ground floor. This complex faces south-west, so it enjoys sunshine all day long throughout the year, and thanks to its lush, beautiful vegetation, it offers a cool atmosphere and welcome shade. The swimming pool and sun terrace are situated at the top of the complex, offering fantastic views of the residential area and the sea.~~The complex has two entrances: one at the upper end, where the covered car parks are located, and through which the property ? measuring around 15 square metres ? is accessed. The other entrance is at the lower end of the complex.
