Imagine coming home and feeling that everything fits. This bright corner apartment stands out for its light and its sense of spaciousness from the very first moment. Thanks to its orientation and its corner location, the home breathes, fills with clarity, and conveys a pleasant sense of well-being in every room. Surrounding practically the entire façade, it has a glass-enclosed terrace that, rather than being a prominent feature, becomes an extremely useful space: it provides natural light, ventilation, and that connection with the outside that makes the home feel more alive and comfortable all year round. With approximately 100 m² built, the property has three double bedrooms, designed to adapt both to family life and to new needs such as remote working or multifunctional spaces.
